

Configure a dialup account in Windows XP

Click Start, and then click Control Panel. On the left hand side of the window that appears, if you see a link that says “Switch to Classic View”, click it. If you don’t see this link, you are already in classic view. Next, click the icon that says Network Connections. At the next window, there will be a link that says, “Create a new connection”. Click on this link to start the new connection wizard, and then click next.

Make sure your screen matches the one pictured above, and then click Next.

Choose to set up your connection manually, and then click next. At the next screen you will choose to connect using a dialup modem, and then click next. The next screen will ask you to name your connection. This name can be anything you like, but choose a name that will properly identify it (Ricknet, Online Door County, etc). Click next again and you should be looking at screen similar to this one.

New Connection Wizard

Phone Number to Dial
What is your ISP's phone number?

Type the phone number below.

Phone number:

You might need to include a "1" or the area code, or both. If you are not sure you need the extra numbers, dial the phone number on your telephone. If you hear a modem sound, the number dialed is correct.

< Back Next > Cancel

Here you will type in the number given to you by Online Door County, and then click next.

New Connection Wizard

Internet Account Information
You will need an account name and password to sign in to your Internet account.

Type an ISP account name and password, then write down this information and store it in a safe place. (If you have forgotten an existing account name or password, contact your ISP.)

User name: johndoe

Password: ●●●●●

Confirm password: ●●●●●

Use this account name and password when anyone connects to the Internet from this computer

Make this the default Internet connection

< Back Next > Cancel

Enter the username and password given to you by Online Door County, and then click next. Then click Finish and you're done!
